Incorporating an Innovation and Entrepreneurial Mindset
Facilitated by **Bikesh Lakhmichand**, CEO, 1337 Ventures

Overview of the Corporate Innovation Journey

- Develop a deep understanding of what Corporate Innovation entails
- Understand different types of innovation activities in the corporate environment today

Establish your innovation objectives

- Identify vision and system-level changes needed
- Extract and understand the external context in various dimensions
- Map external trends to internal needs

By the end of this session, you will be able to :

- Learn how to run internal and external analysis to navigate your innovation journey
- Obtain a thorough understanding of your organisation's state with a structured framework

Obtain buy-in from the organisation

- Understand what it takes for innovation to work in a corporate environment
- Communicate the plan to innovate through incremental changes

Identify your innovation readiness : 8 innovation key drivers

- Acquire the best tools for fostering an environment for innovation in a large organisation
- Understand the right structures to kickstart innovation based on your experience, risk and budget
- The immediate skill sets your people need to attain to ensure you foster innovation

By the end of this session, you will be able to :

- Evaluate your organisation's readiness
- Identify quick wins to kick-start innovation activities

Fireside chat with Corporate Innovators

- Gain perspectives from local and regional practitioners who have implemented innovation within their corporations

5.00pm Closing Remarks by **Wan Murdani Wan Mohamad**, Digital Enablers, MDEC
